P. A. TEASLAND, G. C.
C. W. JONES, Scribe

The country will not be in the best of humor when it reads of the reasons of Secretary of War Belknap's resignation, and why the House of Representatives have unanimously impeached him for high crimes and misdemeanors in office. Calob P. Marsh has testified that he paid Mrs. Belknap \$10,000 for a post-trader-ship, and \$6,000 yearly since, of which Belknap was cognizant and shared in the plunder. And this is the man who desired to be elected a Senator from Iowa. The son of a gun. He ought to be tarred and feathered, starved for a week and then hang.

And Mr. Grant has distinguished himself in this business, by his haste in accepting the resignation of his Cabinet officer. He will find that such action will prove of no benefit to himself or the miserable scoundrel whose crime has just been uncovered. Better had Mr. Grant confined himself to his text: "Let no guilty man escape."

THE POLICE OF NEW YORK.

Not only the citizens of the great metropolis located at the mouth of the Hudson river, but everybody who has tarried there at times, have come to the conclusion that New York is not only a badly governed city, but one in which life and property are inadequately protected. More capital crimes and robberies are committed there, numerical population considered, than elsewhere in the nation; and to the disgrace of her courts it must be said that but few of her criminals are punished.

Last year a legislative committee of the State was appointed to investigate the growth and character of the crimes committed within that great city, and a report of committee has just been rendered. It boldly says that "gambling, lottery-swindling, parcel-thieving and illicit liquor-selling are all protected by the police." If this statement is true, we need not wonder that crime is so frequent and defiant in New York. If protected by the police, it will continue to thrive and expand, life and property will grow cheaper and cheaper, and in time all courts of justice can be safely abolished. They do not amount to much, even now.

A DISHONEST LEGISLATOR.

Mr. R. D. Ruffin, a colored member of the House of Delegates in the Virginia Legislature, was expelled the other day "for abstracting money from the pay-book of the Sergeant-at-Arms." It was very impolitic for Mr. Ruffin to steal in that way; and notwithstanding he might have been short of cash to buy peach brandy and genuine Havana cigars, yet he should have taken some other course for "raising the wind." He ought to have got his white associates to join with him, and all voted themselves double pay for this session of the Legislature. That would have been after the style of the Forty-second Congress, which robbed and plundered the people honorably. No, Mr. Ruffin, you made a mistake in "abstracting money from the pay-book of the Sergeant-at-Arms." That was wicked, and positively vulgar.

What Next?—Elsewhere in this paper will be found an article describing an "Astounding Discovery." And such it certainly is, if truthfully reported. The account is from a German paper which states that Prof. Geissling, after many years of experimenting, has manufactured, by the aid of galvanism, an egg, and that from this artificial egg, he has hatched a bird! This beats evolution. We may well ask, What next?

The Governor of Maine has signed the act to abolish capital punishment.

MINE NEWS.

[From the Gold Hill News of Thursday.]
The stock market at present is not only still and healthy, but keeps looking that way; and the present improved and improving state of the mining situation assists and backs up very materially this state of affairs. Better reports than ever are coming from all parts of the Comstock mineral belt. From the south the Kossuth is coming up with improving productive prospects, and other mines in the Silver City section are asserting their rights for meritorious recognition. Belcher shows improvement both in quantity and quality of ore, and Crown Point is showing better at the north portion of the 1700-foot level above. At the 2000-foot level of the Imperial the drift north from the main southeast is now and has been for several days skirting along the west side of what at present seems to be an important ore development. It has followed it for the last 75 feet, showing lively quartz and low-grade ore, until now the whole drift is in ore which assays as high as \$100 or more to the ton. It is about 160 feet from the Alpha line, but present prospects are that it will run into the Alpha ground. The Alpha consists of 300 feet, 100 shares to the foot, and 30,000 shares, which will account for the present sensitive and sudden increase of Alpha over Imperial. The development, however, is a good and highly important one. California is increasing her ore and milling yield, in view of promised dividends.

Calif. drift.
The face of the north drift, on the 1550-foot level, is still in very rich ore. This drift has about 160 feet yet to run to reach the Ophir line. The winze, from crosscut No. 6, below the 1500-foot level, is down forty feet, the bottom also in fine ore. The north drift, on the 1400-foot level, running to connect with the Ophir, is making steady and favorable progress. Sinking the C & C shaft is making splendid progress. It is now down 1,100 feet. There is a strong flow of water at the bottom which is easily handled by the pumps. It is the intention soon to start the California and Brunswick mills on ore from this mine. These two mills alone, running on the rich ores of the mine, will be amply sufficient to make steady dividends, the California mill having crushed alone 8,000 tons of Consolidated Virginia ore during the short month of February.

Consolidated Virginia.
Daily yield 750 tons of ore. The mills are all steadily running, and notwithstanding the month of February full short of the usual run two days' time, the yield of bullion will reach \$2,800,000, and may reach \$3,000,000. This is the grandest result yet known in the history of mining, the whole immense amount of ore, 21,750 tons, having been extracted, hauled to the mills, crushed, the bullion assayed, melted into bricks and delivered at the mints ready for coinage in one month, and that month too, the shortest in the year. Consumption is simply superfluous, and can add nothing to the force of the naked facts themselves. The ore breasts are still showing as handsomely as ever, in fact the mine throughout never looked better or more promising for the future than at the present time.

Crown Point.
Daily yield 360 tons of ore, keeping the mills running up to their full crushing capacity. The air pipes recently put in on the 1700-foot level are doing their work splendidly, fast cooling off the heated drifts. The main east drift is again advancing, the face in ore that assays from \$10 to \$20 per ton. This is highly encouraging, as the 1800-foot level at the same point did not have any ore at all, and it is believed when the ledge is prospected further south that good developments are almost certain.

Ophir.
Daily yield, 150 tons of ore, keeping the Nevada, Empire State and Winfield mills all busily running up to their full working capacity. The yield of bullion for February will pay all expenses and give about \$50,000 to carry over to the March receipts. The yield of bullion for March will show a large increase over February, on account of the Winfield mill not starting up until late in the month. The ore breasts are both looking and yielding well.

Imperial-Empire.
No ore is being extracted, the work in the mine being confined to the further prospecting of the 1900 and 2000-foot levels. The drift on the 2000-foot level to connect with the bottom of the south winze, shows no change of importance during the week. The main north drift on the 2000-foot level, is steadily advancing toward the Alpha line, the face in quartz and ore of a very favorable character.

Julia.
Sinking the main shaft has been resumed and is being pressed with all possible energy. The main southwest drift, on the 1600-foot level, is steadily advancing with very flattering prospects of soon opening a paying body of ore. The ore prospects in the main southwest drift, on the 1400-foot level, are steadily improving. Both drifts are making splendid progress.

Union Consolidated.
The streak of ore in the north drift on the upper tunnel level continues about 2½ feet in width, and of a

favorable quality. The quartz and ore in the bottom of the winze being sunk below the 1300-foot level is showing much more favorable for the finding of paying bodies.

Calcutta.
Sinking the shaft is making steady progress, the rock in the bottom being somewhat hard and the flow of water still strong. Opening the pump station at the 950-foot level is making steady progress. The pump will be in running order at that station in a very few days more.

Julia.
Some little improvement has been met with at the 400 and 500-foot levels during the week, the ore showing richer and more extensive at some points. Nothing new at the 800 and 1000-foot levels. Winze below the 600-foot level 124 feet.

Best and Belcher.
The double winze below the 1500-foot level is again in splendid working condition down to the 1700-foot level. Repairing the south drift on the 1700-foot level, to meet the workmen from the Gould & Curry side, is going steadily ahead.

Chollar-Potosi.
Daily yield 30 to 35 tons of ore, the assay value of which is \$28 per ton. The two south drifts on the 1250 and 1350-foot levels are steadily advancing in very favorable ground. Sinking the Combination shaft is making excellent headway.

Bolia & Nevada.
With the exception of the breakage of a pump rod creating a few hours' delay, the entire week has been spent in pumping the water flowing from the Savage mine, without producing any favorable result whatever.

New York Consolidated.
The west cross drift, on the 850-foot level, is making excellent progress, the face in fine, favorable ledge material. Repairing the main shaft and getting ready to sink is also going rapidly forward.

Savage.
The pumps have been kept running to their full capacity, hoisting water all the week. The best they can do is to hold the water in check until the erection of the new machinery is completed.

Nexten.
The north drift on the 1405-foot level day before yesterday penetrated a fine prospect of ore, but had again passed through it yesterday into soft porphyry. The prospect is a very favorable one.

ASTOUNDING DISCOVERY.

Extraordinary Advance in Science—A New and Unique Egg, and Hatched Therefrom a Live Bird.

The annexed account of a wonderful discovery recently made in Germany is condensed from an article in a late number of a German paper, the *Algemeine Zeitung*, received by the *Camoria*. The editor, in his introductory, remarked, that "It is with no ordinary feelings that we sit down to make public astonishing facts which follow, well knowing, at first, we shall but excite the smiles of the incredulous; yet, as independent journalists, we feel it our duty to lay before the public such matters of fact as may come within the scope of our own observation, and others may draw such conclusions from them as they may see fit."

"Some years since," he continues, "the whole world was thrown into a fever of excitement by the announcement that Mr. Cross, an Englishman, had read before the Royal Electrical Society, of London, a memoir in which he detailed a process by which he had succeeded in calling into life, by means of voltaic electricity, a minute insect of the *acari* species. The substance from which these insects revived or created was the *sidon* of *potawa*, a perfectly colorless and transparent liquid."

"Mr. Cross's experiments were subsequently tried by Mr. Walker, secretary to the society, with entire success, and with every presentation as to the introduction of any foreign substance that might contain the eggs of these insects. He was also equally successful when the experiments have been certified to by the most respectable authority; and yet there are persons obstinate and ignorant enough to deny the possibility of the production of life from such a substance as that."

"As what we are about to mention is of a similar nature, we expect that the same class of persons will be incredulous as to the truth of our statement."

"But 'truth is mighty and must prevail,' and we trust soon to give ocular demonstration of the facts detailed."

We shall not follow the language of the paper, but give a brief outline of the facts recorded. It seems that, for more than fourteen years, Professor Geissling, of Bruenberg, a man well known in the literary and scientific world, has had his attention directed to the production of animal life by means of galvanism.

This was a daring thought, but the Professor, with the zeal and devotion worthy of the old alchemists in whose footsteps he was following, persevered against obstacles that would have discouraged any man less sanguine than himself; and at last has had the satisfaction of seeing his patient labors crowned with success, that will place his name in the foremost rank of that galaxy of bright stars who preceded him in the great field of discovery.

The Professor's first experiment was to hatch chickens from the egg by the employment of artificial heat, after the manner of the Egyptians. In this he was entirely successful, and perfected a simple and compact apparatus to maintain, by means of hot water, an equal temperature for any period of time.

This being accomplished, he turned his attention to the production of the egg! This was no easy matter; but, after innumerable experiments, during a period of ten years, the details of which would fill a volume, he succeeded in making a correct analysis of an egg. One step was accomplished; but the most difficult was yet to be taken—the mysterious combination of the elements so as to form a compound similar to the natural article.

Encouraged by his success, the doctor set about his almost hopeless task with a determination to surmount every obstacle. He felt satisfied that it was only by means of galvanism that his object could be accomplished, and directed all his energies to the construction of a battery of constant, equal and moderate power.

After trying nearly every kind of battery in use, he had almost begun to despair, when, by accident, he learned that a constant battery of moderate power had been constructed in England, by placing a piece of copper in an ordinary flower-pot, and keeping the earth moistened with ammonia.

He immediately constructed such an one. After various modifications, he succeeded in adapting it to his purpose; and had the satisfaction, after nearly fourteen years of almost constant experiment, of seeing his labors crowned with success, and producing from elements a substance similar in all respects to an egg.

Now came the exciting period of his labors, to see whether this artificially-formed egg could be hatched by heat. He placed it in his hatching-oven, and watched it through a glass door almost constantly, scarcely taking time to eat or sleep, until he had seen the results of his grand experiment.

Day after day he watched with patient assiduity the consumption of his darling scheme, and at last had the satisfaction of witnessing the consummation of his hopes. On the twentieth day after placing his egg in the oven, a small hole was observed in one side of it, and shortly after the bill of a bird was thrust through. The Professor was almost wild with delight, and several times was on the point of breaking the egg to see what kind of a bird he was going to have. He restrained himself, however, and next morning had the satisfaction of finding in the receiver a live bird, of some unknown species, perfect in its anatomy, but strange to say, entirely without feathers!

"This most astonishing result," remarks the paper from which we quote, "has almost upset our previous notions of natural philosophy and the governing laws of animal organism. As we gazed upon the featherless bird hopping about, and feeding upon the seeds given it, we began to doubt the reality of our own existence, or that of anything about us!"

The Professor, urged on by his success, has set about another analysis, and has no doubt of being able to produce perfect birds of every known species.

The German paper says that the whole city is electrified with the development.

The London *Athenaeum* says: The alarming announcement is made that the 'Memoirs of M. Thiers,' on which he is now engaged, will fill sixteen large volumes. We are so ways alarmed. There is by far the best historical writer of France, and his 'Consulate and the Empire' will ever stand as a monument of his literary ability, prudence and scholarship. Napoleon III paid the highest compliment to Thiers when he ignored him as a historian. He was too able and honest to coalesce with the Third Empire.

The second volume of the American edition of the *Count de Paris's* 'History of the Civil War in America,' will be published in April. It comprises volumes three and four of the French edition, and treats of the last of Gen. McClellan's campaigns, the naval operations of 1862, Gen. Butler's capture of New Orleans and Gen. Grant's campaign in the Southwest. If the closing volumes of this work are as well written as the first, it will take a front rank among the histories of our Great Rebellion.

A LUCKY HONEST MAN.—A few days ago, a man found on C street a package containing \$5,800 in \$100 gold notes. He took the notes to a merchant whom he knew and asked to lock them up in his safe, remarking that the owner would probably advertise. No advertisement appeared, but the owner happened to hear the finder speak of the matter, and soon found himself in possession of his gold notes again. He presented the finder with \$400 in coin and twenty-five shares of Sierra Nevada stock.—*Virginia Chronicle*.

STOPIER & BIAZY.

RAIN AND SNOW—NO TRAINS—

GENERAL DEMORALIZATION.—Night before last an old-fashioned rain storm sprang up, and continued without intermission throughout the entire night, and until yesterday morning, when large snow flakes took the place of the pattering rain drops. The snow fell heavy and fast for several hours.

No passenger train arrived from California yesterday, having been delayed by the storm, and some accidents which occurred.

No wires were up yesterday and of course nothing definite could be ascertained. But the latest news was that a freight train was ditched between the Summit and Cisco, the engine and seven cars off the track, which prevented the passenger from coming, and causing the stoppage of the one which passed through yesterday morning going West, at the Summit. Next a land slide occurred between the same points—Cisco and the Summit—taking away some of the snow sheds, and making matters a great deal worse. The freight train going West, which left here yesterday forenoon, did not reach Verdi, but met with an accident or became snow bound, and is now in trouble.

The passenger train of the V. & T. R. R. on account of the non-arrival of the west bound Central Pacific passenger train, could not make its return trip to Virginia yesterday morning, but remained here until afternoon, when it went back for the purpose of bringing down last night's passengers, mail and express. We did not learn whether it made it or not.

The storm has no doubt been a general one, and may still further impede travel.

The New School Books.—The new school books ordered by the State Board of Education, have arrived at S. M. Jamison's, the supply depot for Washoe county. By order of the Board the change must take place within ninety days from the 15th of February, and may now be effected at a trifling cost, the old books being taken as part pay, within the time specified by the Board. Parents should avail themselves of this opportunity now, as in a few weeks the full price of the new books will have to be paid in cash.

SUPR. EVENTS.—Mr. P. Everts, Superintendent of the Eureka and Palisado Railroad, was one of the delayed passengers here yesterday. We have in previous numbers given much information concerning this big little road. Mr. Everts is somewhat anxious to return to his post of duty.

IN TOWN.—Tom Julian, late of Winnemucca, was here yesterday. He is going to take a look at Carson, when he will probably return and locate at Reno, engaging in the practice of the law. Tom is also a printer and may take it into his head to be a newspaper here.

SERVICES will be held by Rev. F. E. Shearer, Secretary for the American Tract Society, at the Congregational Church, Sunday morning. There will be Union service held at the Reno Opera House in the evening, which will also be addressed by this gentleman.

PERSONAL.—Mr. Geo. Daly, of the Enterprise, favored us with a call yesterday. Mr. Daly is the superintendent of the mechanical department of that excellent paper, and his appearance is proof positive of his ability as a printer and a manager.

SICK.—Nels. Hammond has been confined to his house all the week, with inflammation of the lungs. He has been very sick, but was a little better last evening.

THEATER.—There will be performance at the Reno Opera House tonight. The small programmes will furnish you all necessary information. Admission 50 cents.

Do you want us to go out in this kind of weather and hunt local items? If so you are mistaken as to the kind of a hairpin we are.

DURING February, among the vessels engaged in the trade of the port of San Francisco, there were eight total losses and twenty-six partial losses. It is not thought probable that the Kalamazoo will be got off the beach at San Buenaventura now, and she is given up as a wreck.

Summary of Important Telegrams.

An Army of Unemployed Men.
New York, March 2.

A view of the present standing of the labor market here shows that mechanical industries have not recovered from the financial depression caused by the panic of 1873. The number of hands employed seems to be steadily decreasing, and wages are also decreasing. The 'Trades' Unions here have about 58,000 members; of these 21,500 are idle. The building trades have suffered most. The following will give an idea of the number of laborers idle: Carpenters, society-men, 150, and 4,000 non-society men; brick-layers, 300 society, 2,000 non-society; stone-cutters, 400 society, 500 non-society; stone-masons, 175 society, 1,300 non-society; shoemakers, 200 non-society; brass-makers and finishers, 40 society, 60 non-society; fresco painters, 40 society; painters, 150 society, 650 non-society; carriage builders, 40 society, 300 non-society; cabinet makers, 100 society, 1,000 non-society, and about 3,500 of other trades.

Damaging News About Babcock.
Chicago, March 2.

A Times, St. Louis special states that while Babcock received no regular pay he accepted presents from the St. Louis ring. This statement is confirmed by Gen. John B. Henderson and from the District Attorney's office. They have information that in the Summer of 1874, after Joyce returned from his enforced trip to San Francisco, and after his visit to Washington in July and his telegram to McDougal to "let the machine go, things look hunky," that after all this Joyce went to Long Branch and there presented to Mr. Babcock a diamond set which cost \$1,000. This was the time when the manufacture of the crooked whisky was resumed in St. Louis on a large scale. They have also information that the registered letter books in the Postoffice in Washington will show the receipt by Babcock of two packages of money from Joyce.

Proposed Dividend on Western Union Telegraph Stock.

New York, March 2.

At a meeting of the Directors of the Western Union Telegraph Company, yesterday, it was estimated that the earnings would justify the payment of a dividend of 1 1/2 per cent. for the quarter. Several of the Directors were of the opinion that the dividend should be passed, while others thought the stockholders were entitled to whatever was earned.

Legislation Requested.

Boston, March 2.

The practice of evading payment of taxes by wealthy citizens has become such an evil here that solicitors have prepared a draft of an act to govern the question of domicile for the purpose of taxation, and the matter has been referred to the Legislative Committee on Judiciary, with a request that the act be passed.

The number of swine raised in the United States in 1850 was 39,354,213; in 1860, it was 31,512,867; and in 1870 it had fallen off to 25,134,660. In 1874 it was 41,289,301. The New England and Middle States are greatly dependent on the West for supplies of pork, as will be seen by the following figures for 1870. In that year the swine raised in Maine numbered 45,760; New Hampshire, 33,127; Vermont, 46,345; Massachusetts, 49,178; Rhode Island, 14,007; Connecticut, 51,983; total, 241,000. New York raised 518,261; New Jersey, 142,563; Pennsylvania, 807,648; Delaware, 39,818; total, 1,568,180. On the other hand, the principal swine-producing Western States produced as follows: Kentucky, 1,338,227; Tennessee, 1,328,690; Ohio, 1,728,968; Indiana, 1,872,230; Illinois, 2,703,343; Iowa, 1,353,908; Missouri, 2,806,480; total, 13,631,796. Thus it will be seen that the New England and Middle States raised less than one-seventh as many swine as seven of the Western States.

The new novel entitled "Daniel Deronda," by George Eliot, (copyrighted and republished in Harper's Magazine), is exciting unusual interest in literary circles on both sides of the Atlantic. "George Eliot" is simply a *nom de plume*, the writer being a lady, whose real name was Maria Evans, and is now Mrs. Lewis. She is a resident of London, of medium height, slight frame, forty years of age, and is represented as having a grave, intelligent face and a warm, sympathetic nature. It is said the English publishers paid her five thousand pounds sterling (\$25,000) for this last novel. And yet poor Oliver Goldsmith sold his "Vicar of Wakefield" for less than five dollars, and which Dr. Johnson said was a fair price one hundred years ago.

Three hundred axes a day is the capacity of the new axe factory at Huntingdon, Pa.

Regulations for its Observance.

The Lenten regulations are as follows:

1. All the faithful who have completed their twenty-first year, unless legitimately dispensed, bound to observe the fast of Lent.
2. They are to make only one meal a day excepting Sunday.
3. The meal allowed on fast days is not to be taken till about noon.
4. At the meal, if on any day permission should be granted for eating flesh, both flesh and fish are not to be used at the same time, even in the way of seasoning.
5. A small refreshment, commonly called collation, is allowed in the evening; no general rule as to the quantity of food permitted at this time is or can be made. But the practice of the most regular Christians is, never to let it exceed the fourth part of an ordinary meal.
6. The quality of food allowed at a collation is, in this Diocese, bread, butter, cheese, all kinds of fruits, salads, vegetables and small fish. Eggs and oysters are prohibited.
7. General usage has made it lawful to drink in the morning some warm liquid, such as tea, coffee, or thin chocolate made with water.
8. Necessity and custom have authorized the use of hard instead of butter in preparing fish, vegetables, etc.
9. The following persons are exempted from the obligation of fasting: young persons under twenty-one years of age; the sick, nursing women; those who, through weakness, cannot fast without great prejudice to their health.
10. By dispensation the use of flesh will be allowed at any time on Sundays, and once a day on Wednesdays, Thursdays (with the exception of Holy Thursday) and Saturdays, except the first and last Saturdays in Lent and Saturday in Ember week.
11. Persons dispensed from the obligation of fasting, on account of tender or advanced age or hard labor, may use meat at every meal on days on which its use is granted by dispensation. Others dispensed from the fast from other causes, as well as those who are obliged to fast, are permitted to use meat only at one meal.

Presidents.

The following table, prepared for reference, shows the political sentiments and the date of the inauguration of each President, the length of time he lived after that event, and his age at the time of his death:

1. George Washington, Independent, inaugurated 1789; lived ten years; age 68.
2. John Adams, Independent, inaugurated 1797; lived 29 years; age 90.
3. Thomas Jefferson, Democrat, inaugurated 1801; lived 25 years; age 83 years.
4. James Madison, Democrat, inaugurated 1809; lived 27 years; age 85 years.
5. James Monroe, Democrat, inaugurated 1817; lived 11 years; age 73.
6. J. Q. Adams, Whig, inaugurated 1825; lived 23 years; age 81.
7. Andrew Jackson, Democrat, inaugurated 1829; lived 10 years; age 78 years.
8. Martin Van Buren, Democrat, inaugurated 1837; lived 25 years; age 80.
9. W. H. Harrison, Whig, inaugurated 1841; lived 1 month; age 68.
10. John Tyler, V. P., Independent, inaugurated 1841; lived 21 years; age 72.
11. James K. Polk, Democrat, inaugurated 1845; lived 4 years; age 54 years.
12. Zachary Taylor, Whig, inaugurated 1849; lived 10 months; age 66 years.
13. Millard Fillmore, V. P., Independent, inaugurated 1850; lived 24 years; age 74.
14. Franklin Pierce, Democrat, inaugurated 1853; lived 15 years; age 65 years.
15. James Buchanan, Democrat, inaugurated 1857; lived 11 years; age 77.
16. Abraham Lincoln, Republican, inaugurated 1861; lived 4 years and 1 1/2 months; aged 56.
17. Andrew Johnson, V. P., Independent, inaugurated 1865; lived 10 years; age 67.
18. U. S. Grant, Republican, inaugurated 1869.

Tyler and Fillmore were elected Vice Presidents as Whigs and Johnson as a Republican. Their "Independence" followed their inauguration as Presidents.

The King of Dahomey is reported to have changed the fashion of his wearing apparel. He received the Italian scientific commission not long ago, seated on his throne, his body, profusely decorated with the blue, gold and green labels which had been carefully pocketed from the medicine bottles brought by Europeans to his country. If his Majesty had any business and enterprising blood in him, he would charge for the exhibition of the labels as advertisements, and let out the space on his body for bill-posting.

The Eureka Consolidated Mining Company has levied its first assessment of \$1 per share, delinquent April 5th.

The excitement attending the discovery of gold in the Black Hills is not confined to Gold Hill alone, as the reading public might think from a perusal of the Virginia, Silver City, Carson and Reno papers. The people of those places, albeit a decade behind the times, are waking up to the fact that a section of country, which, for aught we know to the contrary, may rival California in its palmy days, lies within easy reach of their doors. From our special reporter we learn that Pawning of Reno, has ordered a meeting of that august body—the Board of Trade—for the purpose of organizing a party of one to go and spy out the land. The only obstacle in the way is the coin required for the furtherance of this tremendous enterprise, seventy-five dollars being the amount. Failing to raise the coin they propose to have a benefit by the McGinley Tronpo.—Gold Hill News.

STATE OF NEVADA.

By the Governor—A Proclamation.
WHEREAS, ON THE 30 DAY OF FEBRUARY, 1876, one THOMAS DONNELLY was, near Primmtown, in the county of Washoe, murdered under circumstances of great cruelty and barbarity by some person or persons unknown, who have until the present time escaped apprehension by the officers of the law; now therefore,

I, J. B. BRADLEY, Governor of the State of Nevada, by virtue of the authority in me vested by the Constitution and laws of this State, and in compliance with the request of many citizens of Washoe County, do hereby offer a reward in the sum of

FIVE HUNDRED DOLLARS,
In U. S. gold coin, for the arrest and delivery to the Sheriff of Washoe County, of the perpetrator of said crime, the same to be paid whenever the Board of Examiners are satisfied the guilty party or parties have been arrested and delivered up as aforesaid.

In witness whereof I have hereunto set my hand, and caused the Great Seal of the State to be affixed, Done at Carson City on this, the thirtieth day of February, 1876.
By the Gov. Thos—
J. D. MINOR, Secretary of State,
By CHARLES MARTIN, Deputy.

SUMMONS.

IN THE DISTRICT COURT OF THE SECOND Judicial District of the State of Nevada, in and for the County of Washoe. The State of Nevada, by J. E. JONES, its Attorney, complains against you as Defendant by ALFRED L. SWIFT as Plaintiff in the District Court of the Second Judicial District, in and for the County of Washoe, State of Nevada, and answers the complaint therein within ten days after the service on you of this summons, (exclusive of the day of service), if served in said County, or twenty days if served out of said County, but within said District, and in all other cases forty days; or judgment by default will be taken against you according to the prayer of said complaint. The said action is brought to obtain a judgment in favor of the State of Nevada, and forever maintain the same in the grounds as alleged by Plaintiff of and in the complaint of the Plaintiff by Defendant; and of which is fully set out in the complaint in this action on file in the office of the Clerk of said Court, and in which reference is hereby made all of which is on file in the office of the Clerk of said Court at Reno, in said County, and in which reference is hereby made.

And you are further notified, that (if you fail to appear and answer said complaint, the said Plaintiff will apply to the Court for the relief demanded.)

In testimony whereof, I, J. E. JONES, have hereunto set my hand and affixed the seal of said Court this 15th day of February, A. D. 1876.

J. E. JONES, Clerk of the District Court of the Second Judicial District, Nevada, in and for Washoe County, Plaintiff's Attorney. feb-15-17

SUMMONS.

IN THE DISTRICT COURT OF THE SECOND Judicial District of the State of Nevada, in and for the County of Washoe. The State of Nevada, by J. E. JONES, its Attorney, complains against you as Defendant by ALFRED L. SWIFT as Plaintiff in the District Court of the Second Judicial District, in and for the County of Washoe, State of Nevada, and answers the complaint therein within ten days after the service on you of this summons, (exclusive of the day of service), if served in said County, or twenty days if served out of said County, but within said District, and in all other cases forty days; or judgment by default will be taken against you according to the prayer of said complaint. The said action is brought to obtain a judgment and decree of this Court dissolving the bonds of matrimony now existing between Plaintiff and defendant on account of crime, unkind and inhuman treatment and cruelty of plaintiff by defendant; that plaintiff be restored to the rights and privileges of an unmarried woman, all of which will more fully appear from the complaint which is on file in the office of the Clerk of said Court at Reno, in said County, to which reference is hereby made.

And you are further notified, that (if you fail to appear and answer said complaint, the said Plaintiff will apply to the Court for the relief demanded.)

In testimony whereof, I, J. E. JONES, have hereunto set my hand and affixed the seal of said Court this 15th day of February, A. D. 1876.

J. E. JONES, Clerk of the District Court of the Second Judicial District, Nevada, in and for Washoe County, Plaintiff's Attorney. feb-15-17

SUMMONS.

IN THE DISTRICT COURT OF THE SECOND Judicial District of the State of Nevada, in and for the County of Washoe. The State of Nevada, by J. E. JONES, its Attorney, complains against you as Defendant by JAMES SHANNON as Plaintiff in the District Court of the Second Judicial District, in and for the County of Washoe, State of Nevada, and answers the complaint therein within ten days after the service on you of this summons, (exclusive of the day of service), if served in said County, or twenty days if served out of said County, but within said District, and in all other cases forty days; or judgment by default will be taken against you according to the prayer of said complaint. The said action is brought to obtain a judgment and decree of this Court dissolving the bonds of matrimony now existing between Plaintiff and defendant on account of crime, unkind and inhuman treatment and cruelty of plaintiff by defendant; that plaintiff be restored to the rights and privileges of an unmarried woman, all of which will more fully appear from the complaint which is on file in the office of the Clerk of said Court at Reno, in said County, to which reference is hereby made.

And you are further notified, that (if you fail to appear and answer said complaint, the said Plaintiff will apply to the Court for the relief demanded.)

In testimony whereof, I, J. E. JONES, have hereunto set my hand and affixed the seal of said Court this 23d day of February, A. D. 1876.

J. E. JONES, Clerk of the 2d Judicial District, Nevada, in and for Washoe County, Plaintiff's Attorney. feb-23-17

ADMINISTRATOR'S SALE.

IN SECOND JUDICIAL DISTRICT COURT of the State of Nevada, held in and for Washoe County. In the matter of the estate of JOHN KELLY, deceased, it appearing to the Court by the petition presented and filed by C. W. Jones the Administrator of the estate of John Kelly, deceased, praying for an order to sell real estate to pay the debts, expenses and charges of the administration. It is therefore ordered by the Court that all persons interested in the said estate appear before the said District Court on MONDAY, the sixth day of March, A. D. 1876, at 10 o'clock A. M. of said day in the Courtroom of said County, in the said Washoe County, State of Nevada, to show cause why an order should not be granted to the said Administrator to sell so much of the real estate of the deceased as shall be necessary, at private sale, and that a copy of this order be published at least four successive weeks in the Daily Nevada State Journal, a newspaper printed and published in said town of Reno, County and State of Nevada.

B. H. WRIGHT, District Judge.
Dated, Reno, February 2, 1876.

SOLE TRADER.

MARY MCGINLEY, WIFE OF JOHN MCGINLEY, a resident of Washoe County, Nevada, hereby gives notice that I intend to apply to the District Court of said County on the 4th day of April, A. D. 1876, at 10 o'clock A. M., for an order of said Court permitting me to carry on, in said State, in my own name and on my own account, the business of a Theater and Opera and Theatrical Manager, and leasing, contracting and managing the "Reno Opera House," at Reno, Nevada, and all business generally carried on in connection therewith, as a Sole Trader, under the name of this State in which cause made and provided. MARY MCGINLEY.

MINING NOTICES.

NEVADA QUICKSILVER MINING CO.

Location of mine, principally place of business, Reno, Washoe County, Nevada.
Location of works, Evans Creek District, Washoe County, Nevada.
Notice is hereby given that at a meeting of the Board of Trustees, held on the 18th day of February, 1876, an assessment (No. 1) of one cent per share was levied upon the capital stock of the corporation, payable immediately in U. S. gold coin, to the Secretary, at the office of the company, Commercial Row, Reno, Nevada. Any stock upon which this assessment shall remain unpaid on the 28th day of March, 1876, will be advertised for sale at public auction, and unless payment is made before, will be sold on TUESDAY, the 28th day of April, to pay the delinquent assessment, together with costs of advertising and expenses of sale.
By order of the Board of Trustees,
Office at Banking House of D. A. Bender & Co., Commercial Row, Reno, Nevada.
Reno, Feb. 19, 1876.

JOHNSON GOLD AND SILVER MINING CO.

Location of mine, principal place of business, Reno, Nevada.
Location of works, Payson Mining District, Washoe County, Nevada.
Notice is hereby given that at a meeting of the Board of Trustees of said company held on the 8th day of February, A. D. 1876, an assessment (No. 2) of one half cent per share, was levied upon the capital stock of the corporation, payable immediately in United States gold coin, to the President, Dr. H. H. Tappan, at his office in Reno. Any stock upon which said assessment shall remain unpaid on the 18th day of March, A. D. 1876, will be deemed delinquent and unless payment is made before, will be sold on SATURDAY, the 18th day of April, 1876, to pay for the delinquent assessment, together with costs of advertising and expenses of sale.
By order of the Board of Trustees,
Reno, February 11th, 1876.

NEVADA STATE GOLD AND SILVER MINING CO.

Location of mine, principal place of business, Reno, Nevada.
Location of works, Payson Mining District, Washoe County, Nevada.
Notice is hereby given that at a meeting of the Board of Trustees of said company held on the 21st day of February, A. D. 1876, an assessment (No. 8) of 1 1/2 cents per share, was levied upon the capital stock of the corporation, payable immediately in United States gold coin, to the Secretary of the office of the company, Reno, Washoe County, Nevada. Any stock upon which this assessment shall remain unpaid on the 21st day of March, A. D. 1876, will be delinquent and advertised for sale at public auction, and unless payment is made before, will be sold on Friday the 21st day of April, 1876, to pay for the delinquent assessment, together with costs of advertising and expenses of sale.
By order of the Board of Trustees,
Reno, Feb. 22, 1876.

ANNUAL MEETING.

THE ANNUAL MEETING OF THE STOCK-HOLDERS of the Cheopatra Gold and Silver Mining Co. will be held at the office of the Secretary (Tomb's store) Reno, Nevada, on MONDAY the 14th day of February, 1876, at 3 P. M., for the election of officers for the ensuing year, and the transaction of such other business as may come before the meeting.
By order of the Board of Trustees,
JOHN HALLAHAN, Sec'y.
Reno, Jan. 26, 1876.

ANNUAL MEETING.

The above meeting has been postponed until Monday the 14th day of March, 1876, at the same hour and place.
